# Britannica Image Quest

**The goal of education is to enable us all to become confident global citizens.**

Knowledge is one part; understanding another; expression a third. Words and pictures are the basic building blocks of expression. Add one to another and concepts, ideas, thoughts, feelings are immeasurably enriched. In education, clear, correct, inspirational, breathtaking pictures matter.

## Questions educators and students ask:

- How do I find the best pictures to use in my teaching, my dissertations, my homework?
- How can I find a picture quickly without having to search through multiple sources?
- How can I find specialist imagery for my particular subject that is not in the big public collections?
- How can I be sure I have permission from the copyright holder to use this picture?
- How can I reach this picture quickly and at the lowest possible cost?
- How can I store, incorporate in my work, print or share these pictures?

# Britannica Image Quest

**Select from more than 1.5 million images from more than 40 worldwide sources - all rights cleared.**

A new service designed specifically to meet the needs of the education community, Britannica, in association with Universal Images Group, has assembled a repository of the highest quality images, from over 40 of the world's best and most respected image libraries. Any member of a subscribing institution has free access and full permission to use any image in this collection for educational purposes.

## Image Quest delivers:

- More than two million high-quality images, reproduced at 150 dpi.
- All images rights-cleared for educational use and suitable for all ages.
- Fast, simple search across broad or specific search terms.
- Easy integration with LMS and suitable for whiteboards, iPads, PC/Mac.
- Copyright and source information are clearly displayed for correct citation.
- Images can be downloaded, printed, saved, shared or e-mailed.
- A single annual subscription gives 24/7 access, providing huge savings over the purchase of rights for individual images.
- Everything in one place – saves many hours of laborious search.
- Search in complete safety – no access to any inappropriate pictures.

# Key Features

- All images are rights cleared for any educational use.
- Selected from over 40 of the world's best image libraries.
- Over 30 subject categories.
- Clear copyright and source information for correct citation and reference.
- Print, download, save, share or email images.
- Classroom ready for LMS, whiteboards, iPads, notebooks, PC & Mac.
